

Integrity:

RENIER MET EVERY DEADLINE.

Meeting deadlines is very important, especially when your showroom has been closed down. Customers like to feel comfortable when they're buying a car, and unaware of everything else that's going on around them. This project could have been very disruptive. Instead, we found our sales up 16% during the construction phase, compared to the same period the year before. That says a lot about Renier's ability to take an issue that was very important to us, like the comfort of our customers, and get the job done around it. Renier was a big part of our success during construction. Even when we were making changes in the middle of the project, they got the job done

WITHOUT DISRUPTING OUR BUSINESS.

"Over the years, I've worked with different project managers at Renier Construction, and they've all gone above and beyond to keep me plugged in to all the details. For a hands-on guy like me, it's the perfect relationship."
