

Integrity

“ Renier comes to the table with a lot of experience. They’re very good at what they do. ”

Ross Hartley,
Senior Project Manager,
McNaughton-McKay
Electric Company

“When we decided to build a bigger facility, we knew we wanted to continue our relationship with Renier. Renier built our existing warehouse in 1999, and they did a great job, so it was an easy decision.

You get a level of quality and expertise that you don’t from other contractors.

We’re excited to use the new facility. It’s a very detailed structure that should serve us well.”
