

Integrity

“Renier delivered on one of the most complex designs with the highest quality finishes ever to be put into a dealership...”

They've got a terrific team that is able to handle any challenges thrown at them. This was, by far, the most demanding project we've ever had, with a very tight timeline. Renier lived up to our family expectations as well as very specific manufacturer expectations. We're proud that this build was the fastest completion of an Arch image facility in North America.

The dealership turned out magnificent. It's sleek. It's modern. It's timeless. All-in-all, we couldn't be happier.

Renier delivered a product that is second to none. And we believe that it's one of our best facilities built to-date.”
