“Our family has owned this Honda dealership since 1998. After 21 years, it was the best time for a Honda Generation 3 Remodel”

Jera Schwer-Wetzel
Executive Vice President
Wetzel Honda

“We’ve been extremely happy with all of our other dealership remodels that Renier has done for us. It was a no brainer to use Renier again.

Renier is very particular - they make sure the finishes are spot on and done correctly. They approach projects with the highest quality. They want to be proud of the work that they do and they know that we want to be proud of our dealerships. They have an incredible ability to pay attention to detail and have the best quality work. Not to mention, the people, all of the people at Renier are the highest quality people.

You should reach out and see what they have to offer. We’ve been 100% happy with all four of our dealership remodels. We had such a great experience after the very first one, which is why we are repeat customers.”
