

“ Construction is not an easy thing, especially a remodel, but this project was very well managed by Renier.

It was managed as well as I've ever seen and I have been involved with hundreds of remodels and rebuilds.

Renier was all about doing things the right way. Their team managed the schedule well, held their subcontractors accountable, and were thorough and professional.

Renier did a heck of a job! I would certainly use them again. 99
