

**Paul Germain**  
General Manager  
Germain Mazda

**“ Renier’s creativity is what keeps us coming back project after project. ”**

Each dealership and project is unique, and manufacturers are looking for us to use many design elements.

A good example is the combination of the Nissan and Mazda dealerships on the same site. The two manufacturers had completely different visions and requirements. Renier was able to put them on the same lot and have them compliment one another while still representing their individual character and brand.

**Renier constantly brings us ideas to consider, and we rely on them for their expertise. ”**
