

**John Higgins**  
Lexus of Dayton

**“ I judge people based on how they handle problems and difficult situations.** For example, to have over 26,000 square feet under expansion and stay open to serve customers is phenomenal. That's a tribute to all the people at Renier Construction. They do everything they say they're going to do when they say it'll be done. And, they stand behind it. This is something you just don't find everyday in the construction business. I'm a fussy guy and want to look good in the community.  
**That's why I've trusted Renier for over 15 years. ”**
